**10mm RGB LED Module**

ARD2-2070

- 10mm diameter LED
- Display any RGB colour

**Description**

This common anode LED module can display any colour in the RGB spectrum. The LED is 10mm in diameter. It's perfect for your next DIY Arduino project.

**Specifications**

<b>Voltage</b>	5V
<b>Colour</b>	Full RGB Spectrum
<b>Weight</b>	25g
<b>Input</b>	Digital signal
<b>Dimensions</b>	25mm x 21mm

**Pinout**

Module	Arduino	Function
V	5V	Power Supply
R	D11	Red LED (pull low on)
B	D10	Blue LED (pull low on)
G	D9	Green LED (pull low on)
