

## Flat Telephone Cable CB2575, CB2576

24 AWG, 4 Stranded Conductors

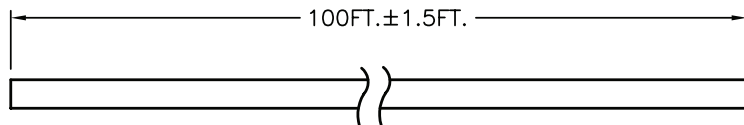

### Description

This 4 core modular (flat) telephone cable is suitable for the connection of apparatus working on DC or voice frequency signals. The conductors are plain copper wire with PVC-V75 cream-coloured sheaths for internal use.

### Specifications

<b>Conductor AWG</b>	24(11/0.16)
<b>Insulation Material</b>	PP
<b>O.D.</b>	0.95 ± 0.05mm
<b>Colour Code</b>	1. Black 2. Red 3. Green 4. Yellow
<b>Temp. and V Rating</b>	60°C to 150V
<b>Conductor Resistance</b>	93 Ohm / 1,000 Meters Max. at 20°C
<b>Insulin Resistance</b>	100 Megohm / 1,000 Meters Min. at 20°C
<b>Dielectric Strength</b>	500V AC for One Minute

Telephone Flat Cable Bare Copper Stranded  
Polypropylene Insulated Flame Retardant PVC Jacket
