

Benetech Digital Anemometer GM8902 USB ME5572

- USB Interface
- measures air velocity, temperature, quantity
- Maximum, average and current measurements
- temperature display in Celsius & Farenheit
- Data Hold
- LCD backlit display
- Auto power off
- Beaufort Scale indication
- Wind chill indication
- Low battery indication

ME5572 - Benetech Model Number GM-8902

Air velocity measuring range	0 to 45 m/s
Air flow measuring range	0 to 99900 m3/min
Wind temperature range	0 to 45°c
Wind speed units	m/s, Km/h, ft/min, knots MPH,
Power supply	3 x AAA Bateries
