

BC1103

12V 4A Sealed Lead Acid Battery Charger

Recommended battery size is 20 to 40 AH sealed or low maintenance Lead Acid.

This fully automatic high current SLA charger is designed to charge high capacity SLA's as used in small auto applications such as Golf Buggies, Toy Cars, Ride on Mowers etc. It plugs into 240V Mains Power and outputs 12 Volts at 4 Amps (fast) 300mA (trickle), to heavy duty battery clips. Switches to float (trickle) charge when full.

- For use on 17 - 40AH SLA Batteries.
- Reverse Polarity Buzzer
- 4Amp Fast Charge
- LED Indicator for Fast Charge, Charge Complete, Float Charge
